

It is important to note that these are recommendations/advice rather than requirements/directives and it is by no means exhaustive as clubs may wish to put additional or site-specific measures in place. Like all other Covid-19 guidance it is also subject to change at any time.

## NHSC Guidance on Covid-19 Equipment and Supplies for GAA Clubs

The following is guidance on the procurement of Covid-19 equipment and supplies that may be required to mitigate the risk of Covid-19 in GAA clubs and facilities. Guidance on each of the following categories is subject to change and based on government guidelines. The Consumer Protection Commissioner has released the following guidelines for purchasing PPE, visit [guide for business on PPE](#)

Item	Specification & Recommendations
<b>Face Coverings (Disposable Masks)</b>	Advise all staff, volunteers, players, and visitors to wear their own mask when required 2-ply minimum with loops HSE advice on types of masks can be found on the <a href="#">HSE website</a>
<b>Hand Sanitiser Dispensers/Hand Wash Stations</b>	Consider portable weather-resistant steel dispensers for outdoor use Outdoor hand wash stations would be a cost-effective measure Wall mounted refillable sanitiser units for indoor use located at key entry and exit points
<b>Hand Sanitiser Antibacterial Liquid Hand Wash</b>	WHO recommend hand washing is the most effective form of hand hygiene Additional antibacterial liquid hand wash should be made available for all indoor areas Hand sanitiser should have a minimum of 60% alcohol and no more than 80%
<b>Antibacterial disinfectant- surface cleaner</b>	Use disinfectant spray to clean key touch point areas such as training/match equipment and doors. Ensure the spray is listed as killing 99% of bacteria including e-coli and salmonella as well as cold & flu viruses
<b>Signage Outdoor</b>	Signs should be weather resistant for at least 12months A2 'corriboard' signs (as illustrated below) suitable for outdoor use <a href="#">How to prevent Coronavirus</a> Consider stencilled ground markings and hazard tape for social distancing measures
<b>Signage Indoor</b>	Homemade or printed signs would be sufficient in most indoor areas "How to Handwash" signage in place in bathrooms "How to Handrub" signage in place next to any hand sanitiser units "Remember social distancing" signage in place throughout all areas. Use of (black & yellow) tape and vinyl floor stickers to illustrate social distancing measures

**\*\* Note: Thermometers are not required for clubs but if using one ensure it is a non-contact and CE approved device\*\***

## Outdoor Signage Samples

**Coronavirus COVID-19**

Help prevent coronavirus

- Wash your hands
- Cover mouth if coughing or sneezing
- Avoid touching your face
- Keep surfaces clean
- Stop shaking hands and hugging
- Keep a safe distance

The virus spreads in sneeze and cough droplets, so regularly taking the above measures helps reduce the chance of it spreading.

Protection from coronavirus. It's in our hands.

### How to Handrub?

RUB HANDS FOR HAND HYGIENE! WASH HANDS WHEN VISIBLY SOILED

Duration of the entire procedure: 20-30 seconds

- 1a: Apply a palmful of the product in a cupped hand, covering all surfaces.
- 1b: Rub hands palm to palm.
- 2: Rub hands palm to palm.
- 3: Right palm over left dorsum with interlaced fingers and vice versa.
- 4: Palm to palm with fingers interlaced.
- 5: Backs of fingers to opposing palms with fingers interlocked.
- 6: Rotational rubbing of left thumb clasped in right palm and vice versa.
- 7: Rotational rubbing, backwards and forwards with clasped fingers of right hand in left palm and vice versa.
- 8: Once dry, your hands are safe.
